

2015 - MANUFACTURER'S ENERGY 2016 TAX CREDIT STATEMENT*

PROVIA® ENTRY DOORS

This manufacturer's certification statement provides the documentation needed to receive an energy tax credit as defined in the "Protecting Americans from Tax Hikes Act of 2015" extending the *Non-business Energy Property Credit* (on IRS form 5695) through December 31, 2016.

HOW TO QUALIFY FOR THE TAX CREDIT

1. Purchase and install ENERGY STAR® certified products beginning January 1, 2015 through December 31, 2016.

Tax credit is for cost of product only - it does not include installation costs. Tax credit is for taxpayer's principal residence only.

2. This act enables homeowners to receive a tax credit for 10% of the product cost or a maximum amount of \$200 for qualifying windows and 10% of the product costs or a maximum amount of \$500 for qualifying doors (**cannot exceed \$500 total tax credit**).

If the homeowner has claimed a *Non-business Energy Property Tax Credit* of \$500 or more in the 2006 through 2014 tax years, **they are not eligible for this tax credit for 2015 or 2016.**

3. The homeowner may be required to have a Manufacturer's Certification Statement to qualify for the tax credit. This is a signed statement from ProVia certifying that the product or component listed qualifies for the 2015-2016 tax credits.

The taxpayer should keep a copy of this certification statement and purchase receipts for their records, but does not have to submit a copy with their tax return.

ProVia certifies that the models listed on this statement are eligible building envelope components for the tax credits listed in the *Non-Business Energy Property Credit*.

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct, and complete.

Larry Troyer, CFO
ProVia

This is a cover page only. Please refer to the enclosed pages for a detailed listing of qualified entry doors. Some custom applications may not appear on this list, please contact our customer service department for verification. Some options vary by model number.

**Due to ongoing product changes and revisions of industry standards and requirements, this information will be updated periodically to reflect those changes and revisions.*

MANUFACTURER'S ENERGY TAX CREDIT STATEMENT

ENERGY STAR® Climate Zone for Entry Doors			
Glazing Level	U-Factor ¹	SHGC ²	
Opaque	≤ 0.17	No Rating	
≤ 1/2 Lite	≤ 0.25	≤ 0.25	
≤ 1/2 Lite	≤ 0.30	Northern North-Central	≤ 0.40
		Southern South-Central	≤ 0.25
Air Leakage for Sliding Doors ≤ 0.3 cfm/ft ² Air Leakage for Swinging Doors ≤ 0.5 cfm/ft ²			

ENERGY STAR and the EPA are committed to improving manufacturer's products to ensure energy efficient products are being produced.

On January 1, 2015 - new certification criteria version 6.0 was released setting a new standard of energy efficiency.

All entry doors are now certified by climate zone. The enclosed product pages are designated by climate zone.
