

2018-2022

## MANUFACTURER'S ENERGY TAX CREDIT STATEMENT\*

### PROVIA® ENTRY DOORS

This manufacturer's certification statement provides the documentation needed to receive an energy tax credit per *Non-business Energy Property Credit* (on IRS form 5695) through December 31, 2022.

#### HOW TO QUALIFY FOR THE TAX CREDIT

1. Purchase and install ENERGY STAR® certified products beginning January 1, 2018 through December 31, 2022.

Tax credit is for cost of product only - it does not include installation costs. Tax credit is for taxpayer's principal residence only.

2. This act enables homeowners to receive a tax credit for 10% of the product cost or a maximum amount of \$200 for qualifying windows and 10% of the product costs or a maximum amount of \$500 for qualifying doors (*cannot exceed \$500 total tax credit*).

If the homeowner has claimed a *Non-business Energy Property Tax Credit* of \$500 or more in the 2006 through 2017 tax years, **they are not eligible for this tax credit for 2018 - 2022.**

3. The homeowner may be required to have a Manufacturer's Certification Statement to qualify for the tax credit. This is a signed statement from ProVia certifying that the product or component listed qualifies for the 2018-2022 tax credits.

The taxpayer should keep a copy of this certification statement and purchase receipts for their records, but does not have to submit a copy with their tax return.

**This is a cover page only. Please refer to the enclosed pages for detailed listing of certified entry doors. Options vary by model and some custom applications may not appear on this list. Please contact our customer service department or visit our website to use the Energy Performance Calculator for verification.**

# MANUFACTURER'S ENERGY TAX CREDIT STATEMENT

ENERGY STAR® Climate Zone for Doors			
Glazing Level	U-Factor <sup>1</sup>	SHGC <sup>2</sup>	
Opaque	≤ 0.17	No Rating	
≤ 1/2 Lite	≤ 0.25	≤ 0.25	
> 1/2 Lite	≤ 0.30	Northern North-Central	≤ 0.40
		Southern South-Central	≤ 0.25
Air Leakage for Sliding Doors ≤ 0.3 cfm/ft <sup>2</sup> Air Leakage for Swinging Doors ≤ 0.5 cfm/ft <sup>2</sup>			

ENERGY STAR and the EPA are committed to improving manufacturer's products to ensure energy efficient products are being produced.

On January 1, 2015 - new certification criteria version 6.0 was released setting a new standard of energy efficiency.

All entry doors are now certified by climate zone. The enclosed product pages are designated by climate zone.
